5. What are we offering?

- **Empowering women** - To make sanitary protection every woman's health right
- **Employment opportunities** - To the most disadvantaged, economically weaker, and underprivileged class of Upper Assam + 12 SHGs (7 blocks of Dibrugarh district)
- **Alleviate period poverty** - To give away 1 pad free of cost to BPL woman for every 25 pads sold
- **Besides Affordability** - To provide other resources alongside pads like undergarments, absence of which discourages rural woman to opt for pads.
- **Awareness Camp** - To bring out the behavioral change and not to leave any chink in the armor constant orientation to be rostered at gaon panchayat level
- **Aatm Nirbhar Bharat** - Inclusive sustainable rural employment model for woman entrepreneur, rural and urban poor woman and physically challenged persons

6. How is offered product provides unique value proposition relative to the competition?

- **Saving Earth** - Eco-friendly, reusable, organic, biodegradable pads to be produced to reduce solid waste and help India to achieve its climate change target
- **Pad Bank** - One of a kind bank where all its subscriber would have regular supply of pads from govt schools, post offices, vending machine and door delivery for remote areas
- **Jute Polymer Technology** - Import of Jute polymer technology would bring down the cost of raw material hence would make it most cost-effective sanitary pad in India

## 7. WHY SHOULD PEOPLE BUY Egaisi?

WE ARE NOT A COMMERCIAL ORGANIZATION. WE WORK TO ENCOURAGE ENTIRE WOMEN COMMUNITY TO BUILD A STRONG FORUM (Health, Education & Skilling) WHICH ALWAYS SUPPORT FOR HOLISTIC DEVELOPMENT OF OUR SOCIETY...

Our products range are starting from INR 23 for 6 quality Pads which is highly impossible for others to provide in Upper Assam. As our Mission is – “To make sanitary protection easily accessible and every woman's health right” and we aspire to make this possible with the help of our associated partners, sponsors, district administration and most important our Team...

## 8. WHAT MAKES “EGAISI” UNIQUE?

1. Pad bank – Mapped beneficiaries (AGs + BPL) account to be maintained for regular monitoring and supply of sanitary pads to achieve behavioural transformation. They might forget to collect the pad but won't forget to deliver to its subscriber
2. Donation of Supporting garments - To provide other resources alongside pads like undergarments, absence of which discourages rural woman to opt for pads.
3. To address post-partum mensuration of woman (BPL) to minimize infection post delivery
4. To reduce vaginal or urinary tract infections – Deusa to provide monthly sanitary packets to 2833 BPL woman
5. To reduce the drop out in schools of AGs - Post attaining their puberty AGs can be encouraged to not drop out/skip school - Deusa to provide monthly sanitary packets (6 in one) for 1500 AGs
6. Regular intervention to make beneficiaries cognizant with ills of unhygienic menstruation methods and handhold AGs to develop hygienic practices Deusa to conduct Awareness camp

DEUSA: - Skill Academy for the disadvantaged, economically weaker and underprivileged
